

## **Luminous Laser Facial**

Luminous Laser Facial is one hour of luxury incorporating the Gentle Yag laser, customized to the patient's special needs of either brown spot removal or broken capillaries, then a collagen remodeling and skin tightening laser treatment, followed by an enzyme peel to slough off top layers of damaged skin, and finished with a facial massage and collagen mask. The patient's skin is left rejuvenated and refreshed. Zero downtime, and perfect for event preparation. Safe for all skin types.
